The IISD Experimental Lakes Area (IISD-ELA) is located in northwest Ontario, and is one of Canada's primary sources of lake science. Since 1968, whole-ecosystem research conducted at the 58 small lakes and watersheds which make up this facility have provided us with the evidence we need to take action for the health of our shared waters. LWF toured IISD-ELA on Sept. 13.

The third annual [Cycling for Solutions](#) ride from Winnipeg to IISD-Experimental Lakes Area (IISD-ELA) was the most successful yet, raising over \$12,000 - and counting! - for citizen science and the Lake Winnipeg Community-Based Monitoring (CBM) Network.

A huge thank you to everyone who supported this year's ride by donating, sharing posts on social media and/or keeping the riders inspired with messages of encouragement. You are making possible the expansion and maintenance of water sampling sites throughout Manitoba. Data collected at these sites will help us pinpoint phosphorus hotspots and...

Another busy summer is coming to a close. As always, we had a great time visiting lakeside communities, taking part in events (and hosting our own!) and meeting the many supporters whose passion and commitment drive our foundation and make a healthy Lake Winnipeg possible. Here are just a few shots from the 2017 summer season.
